

Challenges of European External Energy Governance with Emerging Powers

TECHNISCHE
UNIVERSITÄT
DARMSTADT

Meeting Tiger, Dragon Lion and Jaguar

Governance of scarce energy resources is one of the great global challenges. Resulting from over three years of international, interdisciplinary research cooperation among academics and practitioners in Europe and Brazil, India, China and South Africa (BICS) within a project funded by the Volkswagen Foundation, this project provides innovative insights into energy cooperation between major consumer countries. Specific focus lies on the bilateral energy dialogues and Strategic Partnerships between the EU and Emerging Powers regarding bilateral, inter- and transnational energy cooperation.

The first edited volume has just been published and endorsed as:

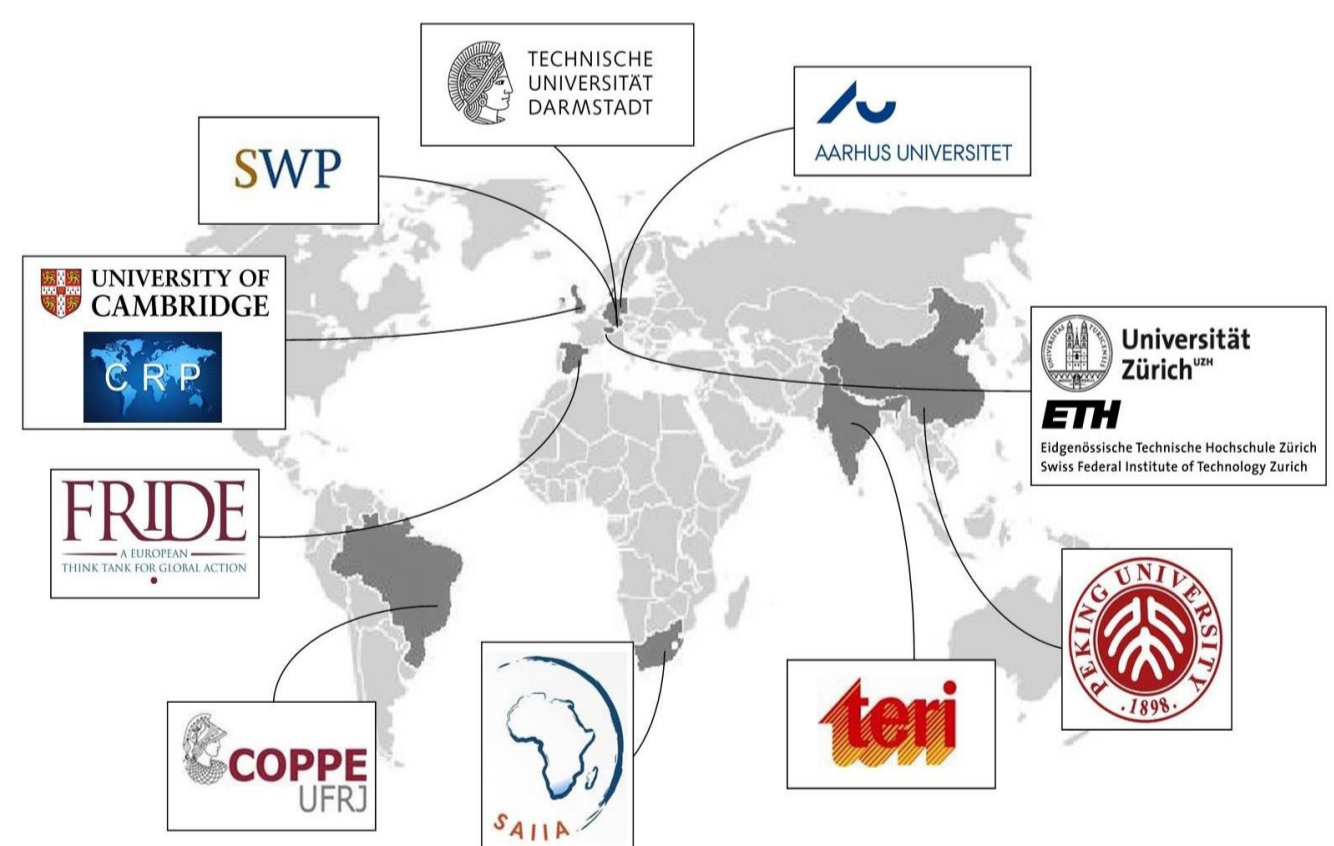

“An authoritative and lucid description of priority issues underlying European energy governance with emerging powers. This energy dialogue among a distinguished group of international experts builds on sound technical analysis and in-depth empirical knowledge. ...

Available November 2015:
Challenges of European External Energy Governance with Emerging Powers
Michèle Knodt, Nadine Piefer & Franziska Müller (eds.)

“A must read for decision-makers, researchers and the concerned public.”

Mohan Munasinghe, Chairman, Munasinghe Institute for Development (MIND), Sri Lanka; 2007 Nobel Peace Prize Laureate on behalf of the IPCC (shared with Al Gore)

A team of 25 renowned scholars and practitioners from all over the world contribute their expertise. The project uses synergies and comparative strengths within transnational teams and beyond disciplinary divides, while integrating local expertise from India, China, Brazil, South Africa and Europe.
